

Introduction to Astrology

by Charlie Muller

Charlie will discuss the type of astrology he uses, the history of astrology in the West from ancient times to the present, and what particular significance astrology has for us as we enter the 21st century and truly move into the Age of Aquarius. There will also be a brief review of the elements of a horoscope and what they symbolize as well as a discussion of the main qualities of the Sun or birthday signs (Aries, Taurus, etc.). Charlie Muller has been an astrological counselor and teacher for 35 years.
